

Airline Catering

Our meals are made with the utmost attentiveness to quality and safety since we are aware that food is one of the most critical factors of a passenger's on board experience.

We operate the internationally reputable Hazard analysis critical control points (HACCP) to ensure that our food is hygienic and safe. This entails being subjected to hygiene audits by both local and international standards boards.

We currently provide airline catering services to Air Malawi, South African Airways and Charter Flights.

Institutional Catering

With our strong background in various catering environments, we strive to stimulate and motivate our teams to achieve and maintain the highest standard possible.

Our team of well trained, competent and dedicated employees ensure that we improve the quality of food, save your money as well as keep your facilities clean.

Our first institutional catering venture was at Chancellor College & Polytechnic the two biggest colleges in Malawi serving over 1500 students per meal. As evidenced by student and college management feedback, we within a short period spectacularly improved the quality of food, hygiene as well the cleanliness of the facilities.

We are ready for any contract catering assignment be it a company that requires meals for its staff, a hospital requiring meals for patients or any other facility that may require catering services. We will provide tailor made catering solutions for your needs.
